ELECTRIC TUG

MOVICART MTE MTE100W

The Movicart MTE100W is an electric tug designed to safely and effortlessly move existing trolleys and wheeled loads up to 5,000 kg (11,000 lb).

The Movicart MTE100W tug reduces operator effort in compliance with ISO 11228 manual handling standards.

The Movicart MTE100W tug is ideal for towing two-wheeled trolleys, such as trolleys used in the textile industry.

Thanks to a wide range of accessory configurations, which allow for quick and safe connection to trolleys of different models, sizes, heights, and weights, improving plant safety while increasing overall productivity.

CONTROL PANEL

studied to put every driving command at the operator's fingertips. Different mounting heights possible to suit any operator needs

VARIOUS CONFIGURATIONS

wide range of accessories configuration available to effectively connect carts of different dimension

PLUG&PLAY LITHIUM BATTERY

the plug&play eco-friendly lithium battery allows one-handed changes in less than 10 seconds

ANTI-CRUSHING SYSTEM

safety precaution that will reverse direction from backward to forward if Movicart hits the operator

HIGH PERFORMANCE

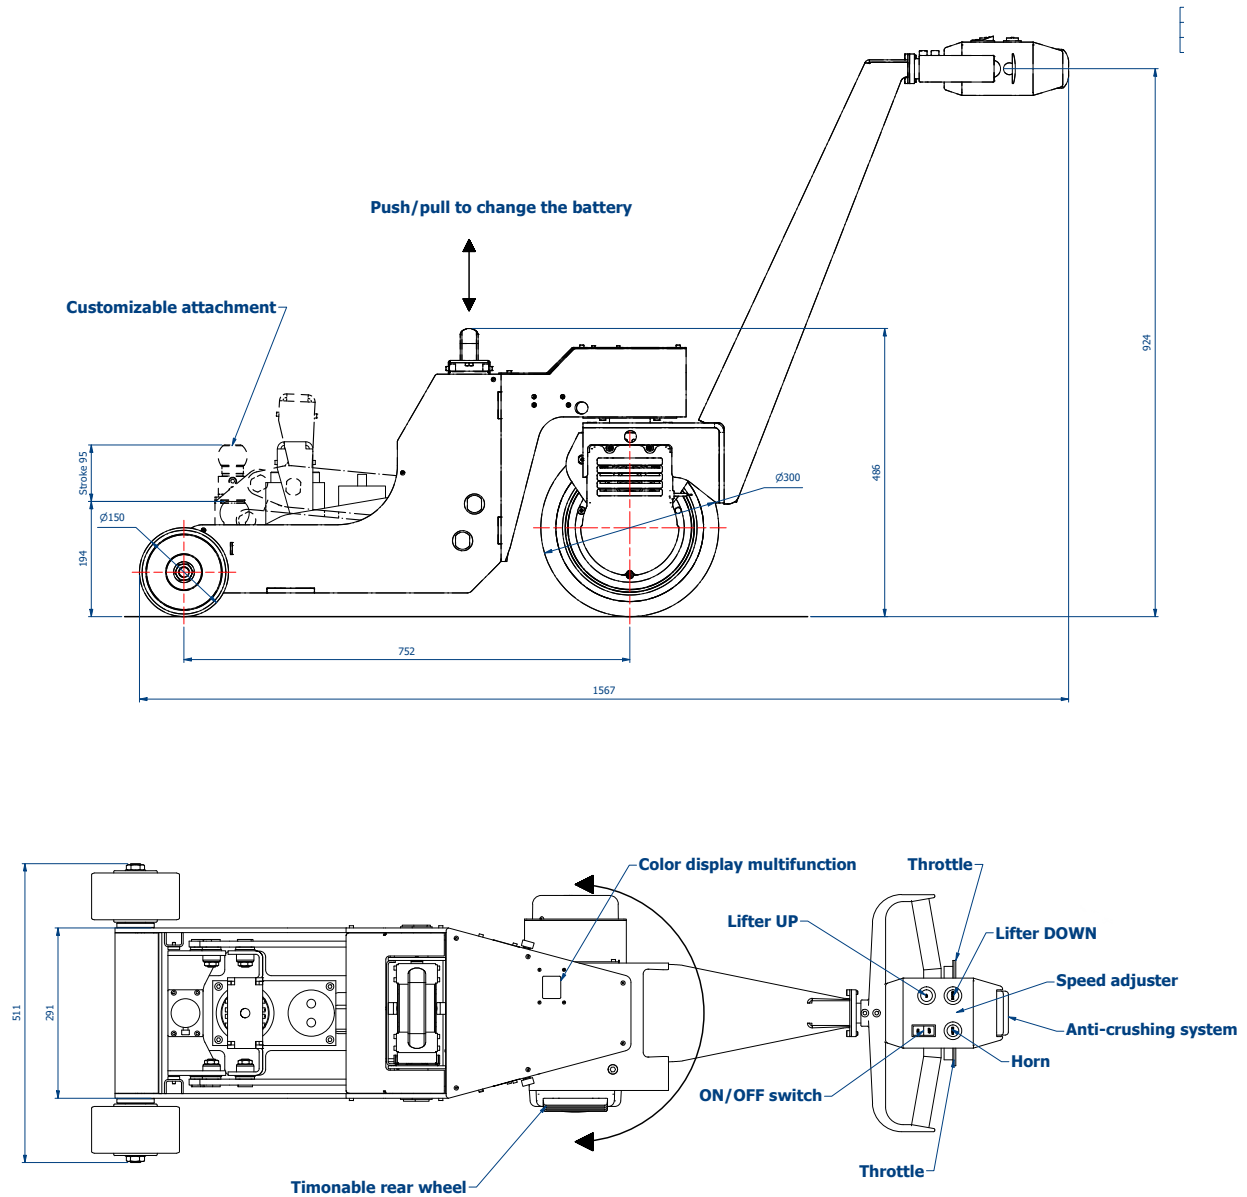

The MTE100W is ideal for moving two-wheeled trolleys up to 5,000 kg (11,000 lb) in weight without any effort for the operator.

2 YEAR WARRANTY

the only product in its category with a 2-year warranty on both the motor and the battery

MTE100W

Movicart MTE100W tug is designed to effortlessly pull carts, trolleys or wheeled loads up to 5,000 kg (11,000 lb). Thanks to its various configurations, it can move carts of different sizes, heights and weights.

model	max tow capacity	lift force	motor	battery	max speed	unit weight
MTE 100W	5,000 kg (11,000 lb)	1.850 kg (4,070 lb)	24 V DC IP 44 brushless	lithium 24 V	50 m/min	170 kg (375 lb)
