BATTERY ROLL PUSHERS

MORE PRODUCTIVITY, HIGHER SAFETY LEVEL

Moviroll roll pushers improve the productivity and increase the safety level as they allow the operator to effortlessly and safely maneuver both large and small cylindrical loads. Moviroll reduces risks for the operator according to the Technical Standards ISO 11228 "Ergonomics Manual handling".

They are ideal to move wire and cable reels and drums, but they are also used to move loads in several other industrial applications.

Battery roll pushers offer the advantage of free movement without the constraints of the pneumatic connections or electrical cables. They are powered by high performance and plug&play 24 V or 48 V lithium battery.
