

movitruck

BATTERY VEHICLE MOVERS

MORE PRODUCTIVITY, HIGHER SAFETY LEVEL

Ideal in automotive production facilities, garages, and mechanical workshops, to move cars without starting the vehicle or pushing it, in accordance with ISO 11228 "Ergonomics Manual handling". It's easy to operate and it doesn't require any driving licence.

Vehicle movers are a useful tool to move cars without worrying about damages to the vehicle, or personnel safety, as it prevents injuries from manually pushing the vehicle and from inhaling exhaust gases.

Movitruck allows the operator to maneuver effortlessly and safely trucks, cars, and vans up to 2500 kg (5500 lb). It is equipped with an extra-large 'L' curved handle, specially designed to avoid contact with the car body, while allowing comfortable maneuverability.

EXTREMELY COMPACT

only 12 cm (4,7 in) high

HIGHLY POWERFUL

thrust force up to 2500 kg (5500 lb)

EXTRA LARGE "L" CURVED HANDLE

designed to avoid contact with the car body, while allowing comfortable maneuverability

SOFT RUBBER ROLLERS
