introduction

Dear customer,

Thank you for purchasing Renova's **moviroll MRE XS / MRE XS LPT / MRE XS L – battery roll pusher**.

We also thank you for the preference you have reserved for this innovative product. We are certain it will satisfy you with its technologically advanced solutions, its in-line and elegant design and its professional quality.

In this manual you will find our instructions for a proper use of this product and the necessary technical information, as well as our advices, to ensure excellent performance over time.

All information contained in this manual have been collected respecting the rules in force, the current state of knowledge of design and construction, our knowledge and our many years of experience.

The instruction manual was translated with all due care and attention. However, we do not accept liability for any translation errors. The Italian version of this instruction manual is definitive.

The warranty does not apply in cases which occur as a result of the Customer's violation of advice concerning operation, incorrect use, improper application, negligence (including but not limited to improper maintenance and storage), accidents, improper installation, modifications (included but not limited to the use of non-original parts or accessories not authorized by Renova), improper adjustment or repair. All parts subject to normal wear are excluded from the guarantee.

warning

CAREFULLY READ THE INSTRUCTIONS AND WARNINGS IN THIS MANUAL AND KEEP THEM FOR FURTHER REFERENCE FOR ENTIRE PRODUCT LIFE. THEY SUPPLY IMPORTANT INSTRUCTIONS REGARDING OPERATIONS AND SAFETY FOR INSTALLING, USING AND MAINTAINING THE PRODUCT.

PLEASE TAKE THE TIME TO READ AND UNDERSTAND THE INSTRUCTIONS COMPLETELY BEFORE THE INSTALLATION AND USE OF THIS PRODUCT.

IN THE EVENT OF A POSSIBLE BREAKDOWN OF THE PRODUCT, THE OPERATOR SHOULD UNDERSTAND THE MANUFACTURER'S INSTRUCTIONS AND BE AWARE OF THE DANGERS, BEFORE ANY CHECK INTERVENTION OR RECOURSE OF RENOVA'S TECHNICAL ASSISTANCE.

general warnings

- **MRE XS / MRE XS LPT / MRE XS L moviroll** is exclusively designed to move cylindrical loads as paper and corrugated rolls, wood and steel rolls, and vehicles.
- **MRE XS / MRE XS LPT / MRE XS L moviroll** must not be used to brake heavy loads which run toward the appliance.
- The workplace must be kept proper of whatever object should be between the machine and the object to move. Any object in between that could create a somersault, a sliding or a fall must be kept away.
- The operator must always be aware that nothing or no one is in the way of the object to be displaced and that no one could be endangered by the moving object.
- Certain fundamental rules must be respected when using any kind of electrical appliance. More specifically:
 - do not leave the appliance exposed to the weather (rain, sun, etc.)
 - do not use the appliance next to flammable material
 - do not let children or incapable persons use the appliance without supervision
- A hearing protection must always be used.
- Do not juxtapose **moviroll** to the coil with the motor already rotating, because it could go into anomaly.

assistance

Renova is worldwide present with Agents and Distributors.

general instructions

INITIAL CONTENT OF THE BOX

A	moviroll MRE XS / MRE XS LPT	x1
B	batteries	x2 (optional)
C	battery charger	x1
D	shipment kit	x1

CONTENT DESCRIPTION

MOVIROLL - In the box you can find the **moviroll** model as previously ordered: MRE 100 XS | MRE 200 XS | MRE 300 XS | MRE 100 XS LPT | MRE 200 XS LPT | MRE 300 XS LPT | MRE 100 XS L | MRE 200 XS L | MRE 300 XS L with curved handle 'S'.

BATTERIES - **moviroll** (all models) is provided with a second battery (optional). The two Plug&Play batteries are housed in the box near the **moviroll** system. They are supplied with a state of charge at 30% or less; therefore, they require a full charging cycle before the use.

BATTERY CHARGER - MRE XS, MRE XS LPT or MRE XS L **moviroll** is provided with the original battery charger.

SHIPMENT KIT - with spare throttle and plug battery.

PACKAGING

Please do not throw away the wood packaging of your **moviroll** as it might be useful for storage purposes, when moving or, in case of damages, when the device must be sent back to Renova srl.

SERIAL NUMBER

Each **moviroll** is provided with its serial number.

Please find the serial number of your **moviroll** stamped on the **moviroll** frame, above the rear wheel.

Example in the picture on the right.

Please find the serial number also on the warranty sheet provided with the **moviroll**.

IMPORTANT:

Always communicate the serial number when requiring assistance or spare parts for your **moviroll**.

instructions for use

- Unpack the appliance and store the packaging material
- After unpacking, make sure that the appliance is intact with no visible signs of damage caused by transport. If in doubt, do not use the appliance and contact Renova srl
- Place the **moviroll** on a safe and flat surface that can support its weight
- Insert the battery into the special chassis. After three months of non-use, the battery needs a full discharge and charge cycle
- Push the switch into the ON position
- 'Ready to go' on the **moviroll** display indicates that the appliance is ready to be used
- Forward gear always engaged. Press and hold the button to select the reverse gear (emergency). Release the button to return to forward gear.

- To start using the **MRE XS / MRE XS LPT / MRE XS L moviroll** to handle rolls just spin the accelerator handle.
- Push the switch into OFF position when the **moviroll** is not running to preserve the battery charge.
- The stand-by function has been added: after 2 minutes of inactivity it turns off the display and puts the MRE into sleep mode. To reactivate it and use it again, simply rotate the accelerator knob.
- The battery series is equipped with rubber damping pads that lock the battery in its working position, eliminating the small movement that currently exists when MRE is used on less than perfectly smooth floors. This accessory can also be supplied for MREs from previous years
- MRE XS series is equipped with the 'antirollback' function which allows, for a time of approximately 2 seconds, and with the throttle in the zero position, to keep the roll in position which not completely loaded on the shuttlecart, with a parking brake function. Pay close attention when using it, because at the end of the time indicated above, the function is automatically deactivated and both the roll and the MRE XS will move quickly towards the operator, with the risk of crushing them both

PLEASE NOTE:

The **moviroll** battery roll pusher is equipped with reverse gear. Please use the reverse gear to release the **moviroll** from the roll, when the **moviroll** remains locked beneath the roll weight because of an obstacle or a wrong maneuver.

BATTERY STATUS

On the display (see the picture at page 8) the battery charge percentage is visible next to a bar indicator of variable length and color depending on the state of charge:

GREEN BAR	YELLOW BAR	RED BAR
		

ATTENTION!

Use the **moviroll** only when GREEN and YELLOW charge indicator. Do not use the **moviroll** with RED bar to avoid any irreparably damage to the electronic unit and the battery. When the battery status indicator is red, with the “**RECHARGE**” writing, you need to recharge the battery immediately, otherwise moviroll will stop working. If you replace the battery with a fully charged one, the moviroll will work again.

BATTERY RECHARGE

- Push the switch into the OFF position
- **Remove the battery from the chassis (as in the picture)**
- Connect the battery charger to the mains supply.
A green LED on the battery charger now turns on.
- Insert the battery into the charger. The LED turns now RED.
- The estimated time of charging is about 4 hours (maximum time needed for a full recharge of the battery). The battery is full recharged when the LED will turn green.
- Please leave the battery under charge for about 30 minutes to stabilize the tension of the cells.
- After recharging the battery remove the battery from the charger, then unplug the charger from the mains supply. The red LED of the charger will remain lit for a bit of time even if cable unplugged.

ATTENTION!

For the full recharge of the battery, please use the battery charger supplied with the **moviroll** battery roll pusher. To not damage the battery please do not use different battery chargers.

BATTERY HANDLING PRECAUTIONS

- Do not disassemble, crush or puncture the battery
- Do not dispose of a battery in fire
- Do not immerse the unit in any liquid
- Do not expose a battery to temperatures above 40°C (104°F) and below 5°C (41°F)
- Do not use a damaged battery
- Do not leave batteries unused for extended periods of time, either in the product or in storage

BATTERY STORAGE AND DISPOSAL

- Store the batteries separately from the product
- Store the batteries at temperatures between 15°C and 20°C (59°F and 68°F)
- Always check and follow your applicable regulations before disposing of a battery

malfunctions diagnosis

In case of anomaly or not functioning of the **moviroll** system, error messages will be shown in red on the display:

	POSSIBLE ERROR MESSAGES	SOLUTIONS/REMEDIES
E01	Motor already powered at start (forward gear)	Turn off/on with throttle in zero position
E02	Motor already powered at start (backward gear)	Turn off/on with throttle in zero position
E03	Battery tension too low	Charge the battery
E04	Battery tension too high	Use another battery and contact Renova
E05	Accelerator handle not at position 0 at start	Turn off/on with throttle in zero position
E06	Broken accelerator handle	Replace the throttle
E07	Overheating	Cool the engine and the electronic board
E08	Programming error eprom	Turn off/on. If the problem persists, contact Renova
E09	Error on control's power	Turn off/on. If the problem persists, contact Renova
E10	Resolver not connected	Turn off/on. If the problem persists, contact Renova

PLEASE NOTE:

Please see warranty conditions on the warranty sheet.

handle height regulation

The **moviroll MRE XS**, **MRE XS LPT** and **MRE XS L** are supplied with handle in high position. However, it can be modified and positioned in the special low connection according to the operator's needs.

High position of the handle

Low position of the handle

SPARE PARTS REQUEST

Please always communicate the serial number of your **moviroll** when requiring spare parts together with the code of the spare parts needed.

Each **moviroll** is provided with its serial number.

Please find the serial number of your **moviroll** stamped on the **moviroll** frame, above the rear wheel.

Example in the picture on the right.

Please find the serial number also on the warranty sheet provided with the **moviroll** and on the Declaration of Conformity in this manual.

instructions for a proper use

moviroll uses the power of a gear motor, which generates the capability of moving small or big loads through a pyramidal transmission with rollers.

The power transmission from the motor to the rollers begins when **moviroll** is touching the roll/load. The rollers on the ground allow the movement of the load in a continuous and regular way and the overcoming of small obstacles.

ⓘ Do not use **moviroll** on surfaces with obstacles and holes of big dimensions that may cause the detachment of one of the rollers from the roller drive.

Figure 1 shows how the weight of the roll/load should be unloaded on the rollers.

Figure 2 shows an example of how **moviroll** should not work in order to avoid the premature breakdown of the bearing of the roller drive due to an improper unloading of the roll/load weight on them.

dichiara che / declare that

Prodotto/Product Name	Spingi bobine ed attrezzature e per la movimentazione di carrelli Reel pushers and equipment and for cart handling
Tipologie/Types	Movicart Moviroll
Categoria ATEX ATEX category	3
Matricola/serial number	

E' CONFORME
FULFILS

alla Direttiva Europea **2014/34/UE**
the European Directive **2014/34/EU**

Prodotto di categoria 3 per zone ATEX 2-22/ ATEX category 3product for 1-22 ATEX classified zone

Sono stati applicati i seguenti standard tecnici
The following technical standards have been applied:

EN 1127-1:2019
EN ISO 80079-36:2016 (ex EN 13463 – 1)
EN ISO 80079-37:2016 (ex EN 13463 – 5)
Controllo interno della fabbricazione in accordo alla EN ISO/IEC 80079-34:2020
Interna Fabrication Control according to EN ISO/IEC 80079-34:2020

RENOVA applicando il marchio **CE** garantisce che il progetto, la costruzione delle attrezzature sopra menzionate rispondono ai requisiti della Direttiva **2014/34/UE**
La presente dichiarazione di conformità è rilasciata sotto la responsabilità esclusiva del fabbricante.

RENOVA by using the **CE** marking guarantee that design, construction of equipment mentioned above fulfil the requirements of the Directive **2014/34/EU**
This declaration of conformity is issued under the sole responsibility of the manufacturer.
